

Early Learning Teacher

Sorrento Community Centre (SCC) is seeking a talented teacher to guide our Early Learning Centre (ELC) through its next stage of development.

This is a unique opportunity for an early childhood teacher with the ability to lead a committed team to a new level of early childhood excellence. The SCC is a well-established and professionally managed service which is forward thinking in its operational and strategic planning and promotes community participation, inclusion and lifelong learning. The ELC is an integral part of the community centre. It provides early childhood education and care for families with children 18 months to 5 years for up to 22 children. The Centre plans to enhance this offering, initially to longer day care and then further extend to funded kindergarten.

Recently the centre has embarked on an extensive consultation process with our community. We are now poised and ready to implement more program choices for parents and to enrich the existing programs for children including the introduction of funded kindergarten.

The centre welcomes newly graduated teachers as well as current experienced teachers or those returning to their chosen profession.

An attractive salary package is on offer to the successful applicant.
